Dr. Wheelon

DD/S&T 2111-63

1. Agency protocol requires no answer. This is the normal type "bread-and-butter letter" written by a senior ~~technical~~ field type after one of his subordinates has visited Washington, gotten the message, and returned to the field with it.

2. Please return and I will keep this in your forthcoming overseas trip file. When details on the trip are sufficiently firm, we will write Archie about the trip and will undoubtedly reference this communication.
